-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 16 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ray (2,846,262) in view of Kirk (5,556,156).

Ray discloses a vehicle having a tent (86) supported by an arcuate shell assembly (40). The arcuate shell assembly (40) is joined to a seat frame assembly (24,62) by spacers (74-79), as seen in Figure 9. The shell assembly and the seat frame assembly are attached to the truck by means of clamps (30) that engage the ends of sidewalls (16,18), as disclosed on lines 20-24 of column 2. However, Ray does not disclose the shell assembly having an aerodynamic nose with a front end that is lower than a rear end.

Kirk teaches a truck tent with an aerodynamic nose formed by a front bow (52) that has a front portion that is lower than a rear bow (34), as seen in Figure 4.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to form the front bow of Ray with a lower front portion, as taught by Kirk, to reduce the reduce drag and improve the appearance of the tent assembly.

Allowable Subject Matter

3. Claims 1-4 and 6-15 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 1-4 and 6-15 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Greg Blankenship whose telephone number is 571-272-6656.
